

A NEW E+ PROJECT: FOSTERING THE GREEN ECONOMY!

Fostering green entrepreneurship through an innovative ECVEET curriculum for the new professional profile of Mentor for Green Entrepreneurs

ABOUT

GREEN MENTOR is a 24 months Erasmus + project lead by utopic_US in partnership with INFODEF (Spain), BEST (Austria), CIT (Ireland) and BBS (Hungary). It is based on 6 intellectual outputs to build a framework for supporting the transition to a greener Europe. 5 partners in 4 countries working together to deal with the current lack of tools and recognition for this key profile.

Are you an entrepreneur, business or a mentor interested in “greenize” your project or way of doing? [Email us!](#)

This project aims to design and elaborate innovative VET contents and products to encourage the new professional profile of Mentor for Green Entrepreneurs, identifying and developing the competences, methodologies and tools required by these Mentors to effectively support green entrepreneurship in Europe through VET.

LATEST NEWS!

KICK OFF meeting in Budapest (November 26th and 27th)! We finally met with the international partners in Budapest. In this first transnational meeting we present the project and the partners, agreed about the structure of the IOs and most of all, known much better the rest of the collaborators. Hosted by BBS, we spend two days working together and organising the next steps for the project.

Aim of the event: Initial agreements and contracts, settling of procedures and shared understanding and commitment, team building. Detailed presentation of project management tools, plans and timetable by the project coordinators. Presentation of the work plan and methodology for the development of State of Art (O.1), Video lessons (O.5) and Green Mentor Pedia (O.6).

Further information about the project will be available soon in the Green Mentor webpage. Check in our social networks for updates!
